# About us:

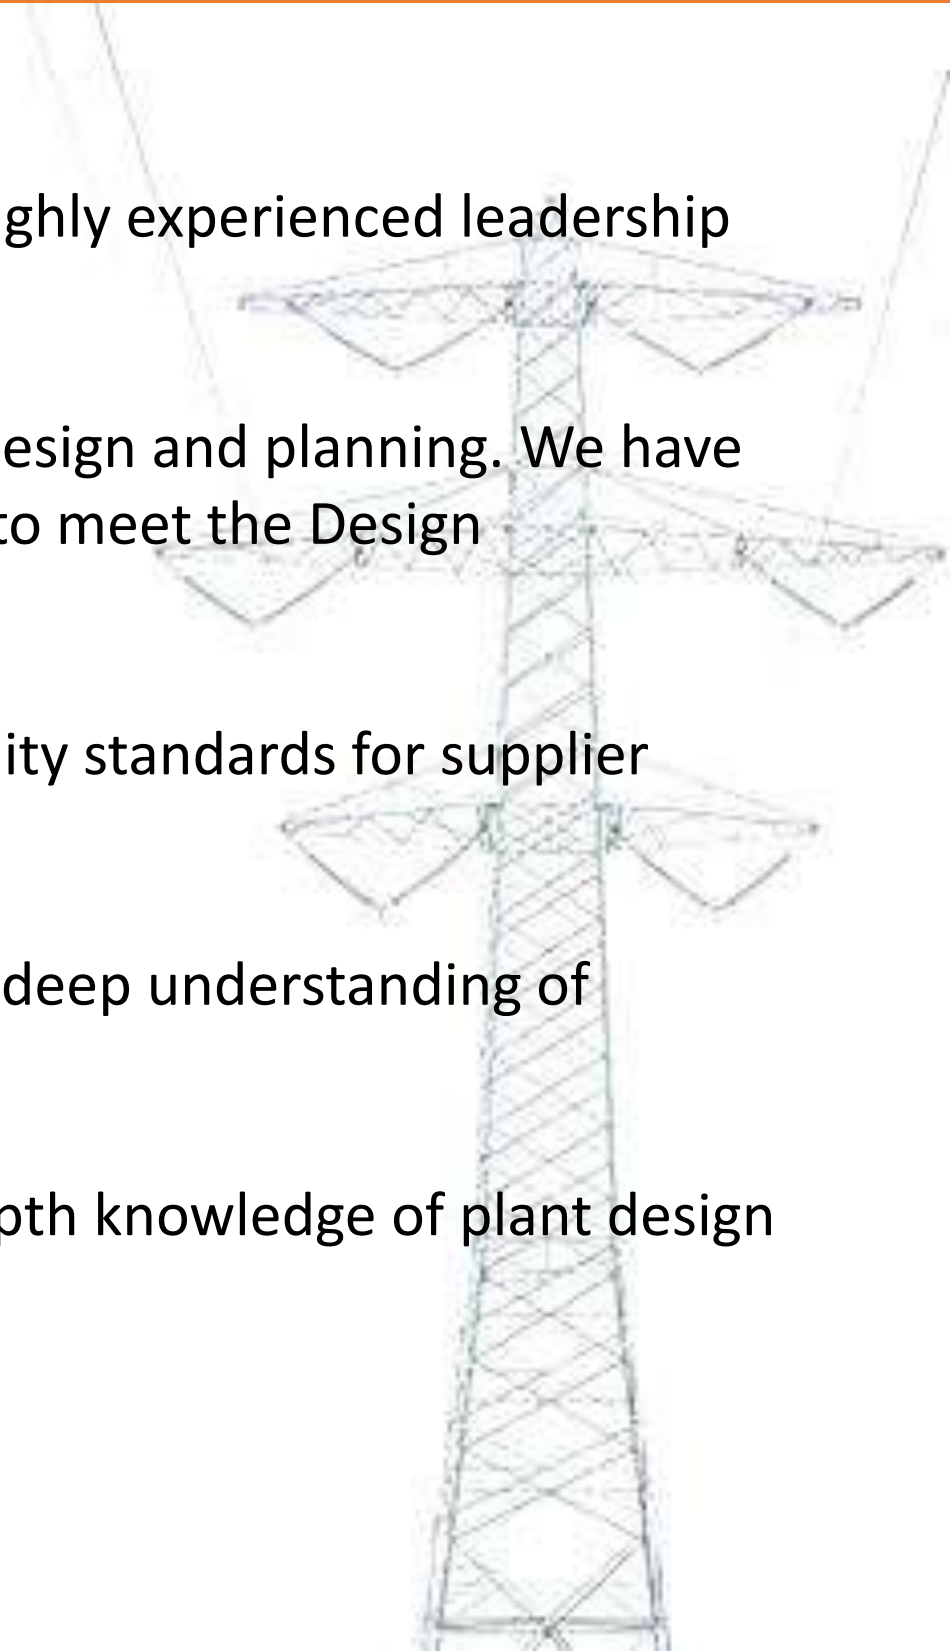

**Experienced Team:** Our management team is constituted by a highly experienced leadership team.

**Engineering Excellence:** We focus on value based engineering, design and planning. We have Trained and highly experienced professional from all disciplines to meet the Design consideration.

**Quality Focus:** Our company has well-defined and stringent quality standards for supplier selection and product quality.

**Effective procurement:** Our procurement strategy is driven by a deep understanding of vendors / contractors network in India and abroad.

**Demonstrated capability in systems integration:** We have in-depth knowledge of plant design and optimization techniques.

# Engineering, Procurement & Construction

Shree provides a wide range of engineering, procurement and construction services offering feasible solutions to its customers. Our EPC team is able to value-add, given their extensive exposure in design, construction, fabrication and field engineering, with optimum use of technology and engineering to meet client's needs.

The range of services under Shree group is fully equipped with in-house man includes the following:

- **Feasibility study & conceptual design**
- **Design engineering**
- **Detailed engineering**
- **Procurement**
- **Construction**
- **Project management**
- **Workshop, equipment and fabrication support**
- **commissioning & start up**
- **Alliancing/ Consortium contract execution**

# Procurement Services

Shree has skilled procurement and contract Subcontracting specialists in India.

## The team's capabilities include:

- Traffic and Logistics Support
- Warehousing
- Facilities Procurement
- Shop and Office Expediting

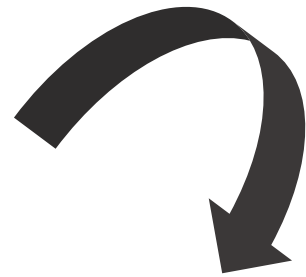

We have developed a regional supplier and Material Planning and Control contractor base for capital project sourcing requirements on local Purchasing and global projects. Shree can provide safe, and cost effective solutions for goods and services.

# Construction Services

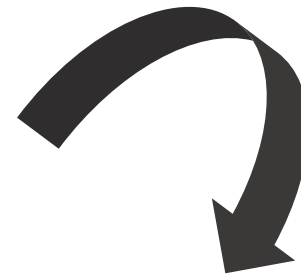

## Our Activity Sectors

- Integrated Energy Solutions
- Infrastructure Projects
- Consultancy

## Our Strengths

- Fast-track project expertise
- Highly qualified personnel
- Robust financial position
- Strong collaborations
- Reliable partner

## Our Values

- Business excellence
- Integrity
- Technical leadership
- Safety First
- Transparency
- Sustainability

Shree has comprehensive construction execution capabilities. Shree provides construction management services on diverse across a broad spectrum of industries. We can self-perform projects and services include construction planning, construction or act as the construction manager on both large and subcontractor qualification and evaluation, subcontractor small sized projects.

# Leading through Excellence

Shree carries out highly demanding, complex projects that require strong project management expertise and technical know-how. Leading through excellence is the motto for Shree's performance, thus gaining the reputation of being a reliable and trustworthy partner.

## WHAT DIFFERENTIATES US

*Experts in project execution Shree is successful because the entire organization is highly focused on project execution.*

### Our team is our power

We have developed our capabilities through continuous investment in Human Resources across all functions.

### On-time and on-budget

We have excellent track-record in delivering projects on-time and on-budget.

### Capacity and flexibility

Proven capacity to execute multiple projects simultaneously with world class performance.

### Strong collaborations

We have the ability to offer the most appropriate solution for any project and serve customer needs most effectively.

### Reliable partner

We believes that the reputation of the group is built on its integrity and the ability to reliably deliver complex projects for the long-term benefit of the customers and communities served.

## POWER SECTOR

**Sub stations:** Backed by well-informed experts, Shree is offering an extensive series of Substation.

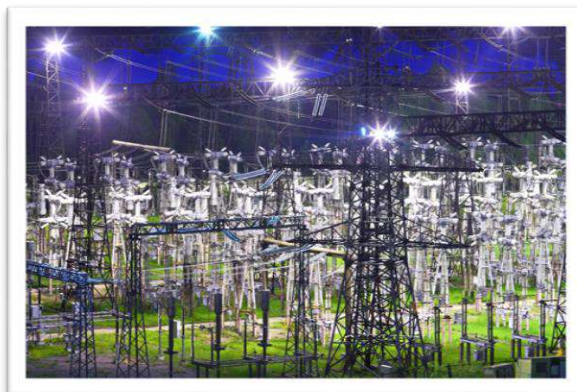

**220/ 132/ 33Kv Switchyard**

We are counted on our high industrial experience in providing high quality and competitive solution of lighting for substations which includes projects of 765 KV, 400 KV, 220 KV, 132 KV Switchyard and HVDC substations.

**GIS Sub station**

We are the leading organization to offer our precious clients an optimum quality **GIS Substation Work.**

**Power Substation**

Our valuable clients can avail from us premium quality **Power System Design Services For 33/11 Substation And Distribution.**

**Compact Sub station**

We offer our clients Compact or Indoor substation for energy transformation in secondary distribution network from LV to MV to HV

# Switch yard and Earthing work

**Power Transformer**

Power Transformers being the most important element in any Industrial/Commercial unit, at Shree, our main aim is to provide superior quality maintenance free Power Transformers products.

**CT and PT Combined unit (Indoor & Outdoor)**

We supply Copper wined Indoor and Outdoor CT & PT unit to our valuable clients.

**Electrical Earthing**

We are expert in offering earthing system installation services and also provide anti-static earthing/grounding points. Our services include earth testing and earth electrode resistance testing and complete LV-HV substation earthing services.

**Isolators**

We supply Isolators to our clients at highly reasonable prices within the stipulated period of time. The quality of these products undergoes strict checks under the supervision of professional auditors to ensure complete satisfaction of the clients.

# Capacitor banks HT-LT

We are one of the well-known supplier and service provider of a huge gamut of Power Systems. Our comprehensive range of these systems consists of Electronic Active Filters, Thyristor Switched Capacitor Banks, Automatic Harmonic Filter Panel, Tuned Harmonic Filters, Detuned Filters, Power Factor Control Relays, Capacitor Switching Contactors, LT-HT Capacitors, HT Reactors, Power Quality Analysis etc.

**Capacitor banks HT-LT**

We at Shree, supply Unbalanced detection scheme capacitor at best price. The main purpose of an unbalance detection scheme is to remove a capacitor bank from the system in the event of a failure and fuse operation. This will prevent damaging overvoltage across the remaining capacitor units in the group where the operation occurs.

**Unbalanced detection scheme capacitor**

# Transformers and DG sets

We offer the range of **Distribution Transformer** of 400, 250, 100, 63, 25 KVA **oil cooled** type that is manufactured in compliance with BEE standards

**Distribution Transformer**

**DG Sets**

We supply compact and microprocessor based fully configurable control Unit. Some features are:

- Unique integrated DG set controller
- Both engine and alternator parameter in one console
- Fully configurable digital output
- All parameter are settable and password protected
- Remote start

# Switchgears and panels

Our Price Quotes Are As Reasonable As One Can Get In The Market, And That, Brackets Us With The Chief Suppliers Of Indoor Switchgear Panel In India. Available In Various Specifications, The Indoor Switchgear Panel Can Be Customized As Per The Buyers' Specifications.

**Switchgear**

Our valued clients can avail from us quality Electrical Control Panels in different specifications. These Electrical Control Panels are used to control the electrical motors in cattle feed industry, poultry feed industry, fish feed industry, wood pellets industry, Agro waste industry and many others. These Electrical Control Panels are dust proof and ensure efficient performance.

**Control panels**

# Electrical Wiring Work

With vast patron support and vast industrial experience, we are indulged in offering an extensive gamut of **Electrical Bus Duct**.

**Features:**

- Dimensionally accurate
- Optimum performance

**Electrical bus duct**

**Wiring related work** for various types of Industrial & commercial projects covers the light wiring, computer / UPS wiring, Racway installation work, various types of MCBDB like UPSDBS, RPDBA, LDBS.

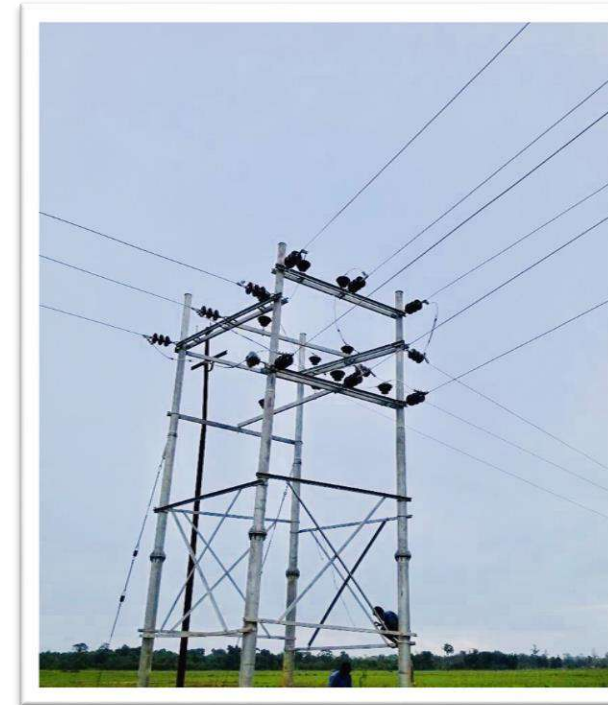

**Internal Electrification Work**

# Transmission Line Services

Over the years, we have emerged as a trusted name in providing installation services for Transmission monopole Towers. With the use of advanced machines and tools, we undertake installation, wherein survey, check survey, and span calculations are given utmost attention for tower extensions.

**Power line on Monopole**

We are actively engaged in providing high quality **HT Overhead Line Work 33 KV, 22 KV and 11 KV HT line in remote areas of the country**. The offered service is rendered by our professionals which hold rich experience in this domain and assists us in offering this service in an efficient way. This service is highly appreciated for hassle-free management, timely execution, promptness, flexibility and reliability.

**Overhead Line**

# Distribution Line and Overhead line Fittings

We are one of the reckoned service providers of a wide array of overhead HT and LT transmission lines installation services. These installation and commissioning services are executed by our experts for poles, conductors, cables, insulators, hardware fittings and acb. We offer these services to the clients at highly affordable prices.

**HT/ LT Distribution line**

We are involved in the supply of a high quality and vast array of Overhead line Fittings and Hardware Materials. We understand every requirement of our clients.

**Overhead Line Fitting**

# Cabling network

We are a well known supplier of a comprehensive range of highly reliable Electrical & IT solutions. These products are widely acknowledged for their flawless designs and superior performance characteristics.

**Wire cable Management**

Owing to our expertise in this domain, we have been able to carry out HT Underground Cable Work. All our services are in strict adherence to industrial standards & norms, and are widely appreciated by the clients for their reliability, flexibility and timely execution.

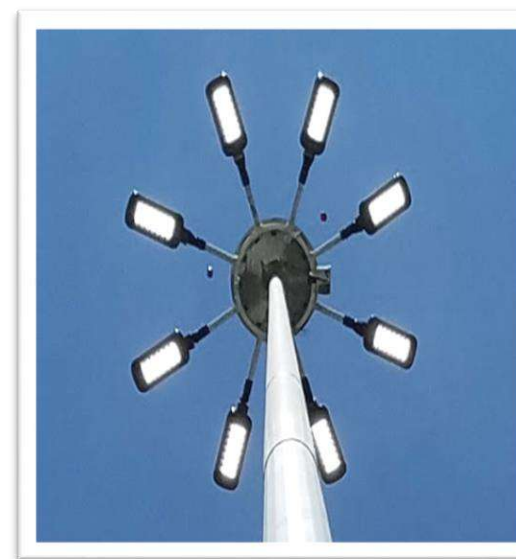

**Under ground / over head cabling work**

# Lighting work

Our organization is involved in providing **Street Lighting Service** to our esteemed clients at affordable price.

**LED Lightening**

We wish to introduce ourselves as the leading supplier of Mobile lighting towers supplying to all leading Construction companies and Government sector organizations.

**High Mast Lights**

# Civil work

Equipped with all the latest technology and experienced professionals, we are engaged in offering the services of **Construction of Commercial and Residential Complexes, Drainage system, Interlock/ RCC road construction etc.**

We are engaged in offering a wide range of **Industrial Civil Works Services** like: , **Rain water harvesting, Water pipeline**, to our valued patrons.

# Design and beautification

We are providing Conceptual Design Service to our clients. Through this process our designers make an abstraction of the 3D model of a product.

**Conceptual Design**

Our professionals helps in beautification of various residences, garden & landscapes within limited time and affordable price.

**Civil beautification Work**

# Solar

We are engaged in supplying Solar Pumps that are fabricated from using quality materials and efficient machinery.

**Solar Water Pump**

We are offering Solar Street Light to our clients at a reasonable rate.

**Smart Solar Street Light**

# Future Tech.

We are reckoned as one of the most reliable and satisfying company in this line of work of supplying the world class analysers in the market. Our product range also exceeds to these high class distribution-line analysers. These Distribution Line Fault Locator are generally used to monitor the AC overhead distribution lines. These analysers perform several functions such as fault location, fault isolation, line signature analysis (LSA) etc. With one investment one can count on for years to come.

**Line Fault locator**

Owing to our proficiency in this domain, we are supplying our clients an optimum range of **Prepaid Electricity Meter**.

**Prepaid Metering**

# Fire Alarm and Safety Systems

With the valuable assistance of skilled team of professionals, we are engaged in offering an extensive range of high-quality **Fire Alarm Security System**.

# Manpower and Management

We are a professionally Managed Organization in the field of Manpower management. Our endeavour to deliver the highest level of Satisfaction in the field of Manpower Management in Delhi-NCR region comprising Ghaziabad, Noida, Delhi, Faridabad, Gurgaon and many parts of India. Our Facility Management leads to the creation of team, which has core competence in the area of Manpower Management. Competent professionals discharge our services with a backend support from a team of Creative Managers who have proven track records of successfully implementing and managing big projects in the domain of Manpower management.
